# Report of Extensive Criminal Acts Against My Children and Me

## Report To Cheshire Police

**Tom Dobbie**

**3/27/2015**

In July 2010, Cheshire Police arrested me for the supposed assault of Catherine Avril Dobbie. Even though the police were given details of Mrs Dobbie's extensive abuses of the children and me, and details of her assaulting our toddler and myself, the police chose deliberately to ignore this, chose deliberately not to investigate, and in line with their silent policy on domestic violence, threw me out of my house, putting my children in harms way, and allowing Mrs Dobbie to abuse the children more and destroy my property and harass me using the lies she conveyed to the police - EVIDENCED. This was the start of an extensive and prolonged ABUSE BY PROXY carried out against me by Cheshire Police on behalf of Mrs Dobbie and her boyfriend Ken Redman- EVIDENCED. Cheshire West social services had been involved in the family in 2009 and readily identified Mr Dobbie as the new primary carer in order to protect the children against Mrs Dobbie's frequent physical and emotional assaults on the children - EVIDENCED. Following the police negligence in arresting and charging Mr Dobbie with assault, social services immediately hid their previous reports and followed a new version of everything based on Cheshire police's negligence - EVIDENCED. In 2011, Mr Dobbie got full custody of the children based on CAF/CASS reporting violence and abuses by Mrs Dobbie and Mr Redman on the children - EVIDENCED. This showed that CPS were not only wrong, but extensively and abusively wrong - EVIDENCED. In order to protect themselves, CPS set about repeatedly harassing Mr Dobbie and dragging him repeatedly to the family court using smearing, perjury, lies – ALL EVIDENCED. They did this over an extensive period, up until a judge finally decided to rubber stamp what CPS wanted - EVIDENCED. The judge agreed to extensive CPS perjury, and he himself perjured his own court in order to protect the CPS and local authority – EVIDENCED.

If he had not done this, he would have to suffer the fact that he had favoured these criminals extensively in his history with them. Mr Dobbie kept constant contact by email with Cheshire Police - EVIDENCED. In particular, DI Nigel Parr and John Dwyer. DI Nigel Parr never investigated the crimes against the children and frequently cited reasons that he could not – EVIDENCED. In order to protect my children – ( remember, every report says the children are desperate to live with dad; even the psychologist Tom Billington tested the children as seeing dad as by far the most important person in their lives) – I again reported the abuses and multiple acts of criminality covering, child abuse, sexual abuse, harassment on a scale making me diagnosed as ICD10:F43 , destruction of property, theft , perverting the course of justice, perjury ...ALL EVIDENCED. The police had previously said they had no reports from third parties of the child abuse (even though they had the CAFCASS report, photographs, audio, video, Aurora’s blogs, witnesses) - EVIDENCED. I reported through the 101 system and informed Cheshire police that if they would not address this huge raft of abuses and criminality, then I would report it to them in public, which I then did - EVIDENCED. Cheshire police arrested me for harassment of reporting the abusers and abuses of my children to them - EVIDENCED. They agreed to investigate properly and did close to nothing - EVIDENCED. I again reported to them in public the abuses and crimes - EVIDENCED. I was arrested again where the police agreed they had not investigated and were not interested to investigate - EVIDENCED. I was in prison on remand for most of 2014 which involved extensive loss of property and severe mental health problems due to the above mentioned ICD10:F43 - EVIDENCED. This was exacerbated by the prison refusing to administer medication in line with my psychiatrists directions - EVIDENCED. This resulted in me being sectioned to Clatterbridge at my request in order to protect my mind and not have a full breakdown- EVIDENCED. The psychiatrists at Clatterbridge initially thought that I must be delusional as the scale of abuses to the children and me was excessive to say the least - EVIDENCED. After some weeks and seeing hard evidence and talking to witnesses they pronounced me not delusional - EVIDENCED. I have been to the Crown Court where a limited amount of the evidence was produced showing that I had reported extensive abuses, harassment and criminality to Cheshire police who had simply refused to investigate the matter properly - EVIDENCED. This last 5 years has seen the continuous campaign by Mrs Dobbie and Mr Redman to hide their abuses of my children - EVIDENCED. They have employed acts of outrageous harassment, criminality and abuses to the children and me - EVIDENCED. CPS and the police have not only acted negligently, but in my mind, criminally in trying to cover up child abuses and crimes - EVIDENCED. Attached is a document to the court outlining some of the abuses. There are numerous supporting documents verifying the abuses and criminality. Perhaps two last bits of information clarify aspects of this case: 1). one insight into all of this was where the sergeant from Cheshire Police replied to PPS ‘we did not investigate this because we thought he was just making it up because we arrested him’. 2). It was described in the Crown Court as a mess of abuses on a Biblical scale. Now, can you please investigate properly, without hiding things and without covering up. Please do this in a timely manner as my children want to get back with me, and I want my life back. NOTE : CPS here means child protective services – of Cheshire West and Chester.

## Summary.

S1. Mr Dobbie, loving decent father, huge trail of people helped, consultant physicist, extensive world travel lecturing and presenting, lectured at NASA, is arrested and charged with harassment in January 2014. He spent much of 2014 in prison on remand, or in isolation from his children, friends and doctors.

S2. The charge of harassment arises because he had to report crimes committed against his children to the police on the internet, because the police repeatedly refused to investigate or acknowledge that the crimes Mr Dobbie is reporting are real.

S3. There is a mountain of hard evidence fully supporting what Mr Dobbie reported to the police.

S4. The police criminally (misconduct in public office and criminal negligence amongst other criminal acts) refused to look at the evidence or investigate, but simply sided with their cronies in the local authority to cover up the local authorities crimes.

S5. The local authority of Cheshire West and Chester made gross mistakes when initially getting its social services involved with Mr Dobbie's family. After making initial gross mistakes, they refused to acknowledge their mistakes and continued criminally to try and cover up the mistakes. In this process, they put children, against their wishes with their abusers; they covered up the criminal abuses of the children. They criminally harassed Mr Dobbie through the courts with lies, perjury and smearing to such an extent that his mental health suffered (psychiatrist's reports state this) and they destroyed his ability to carry out his business. They carried on in this criminally abusive manner until they had destroyed all of his finances, made him seriously mentally unwell, made him homeless and kept him and his children gagged by the abuse of family court powers.

S6. This case arises only because of highly evidenced gross acts of criminality, gross acts of perjury and perverting the course of justice, covering up and allowing sexual and physical and emotional abuses of children, harassment and torture of a father, destruction of property over a million pounds, spending over a million pounds of tax payers money to gag and hide the evidence, across :-

- police - including the crime commissioner of Cheshire,
- judiciary - including the family court in Chester and Liverpool,
- local authority employees - all the way to the Chief Executive of Cheshire West and his board of directors,
- CAFCASS
- various solicitors.

S7. Since the justice system has been hijacked previously, allowing it's powers to be abused as the agent of criminality, then the matter is brought to the attention of the parties below.

S8. Copied to : Adrian Evans, BDH Solicitors Ellesmere Port, HMIC, IPCC, Director of public prosecutions, Inquiry on Child sexual Abuse, Home Office, Various MP's, Various Newspapers and others.

All copied on the basis that this entire case only exists because of the criminal behaviour of all of the groups involved, all who have carried out a raft of crimes well beyond misconduct in public office. In particular, these authorities are supposed to be protecting children from sexual and other child abuses, but they have done the opposite of what their public office duties are. This includes the Chief Executive of Cheshire West, the Crime Commissioner and board directors of Cheshire West.

S9. All copied on the basis that this entire case only exists because perjury and perverting the course of justice has been readily accepted many times openly between the family court in Chester and the local authority of Cheshire West and Chester, including the Chief Executive of Cheshire West and his directors. These directors are evidenced as having deliberately lied to requests for clarification by MP Andrew Miller. The entire cross system is run in a fashion of cronyism by gangsters who not only act criminally, but openly abuse the law by hijacking it to protect themselves and their organisations.

## **Petition No. 4 To Chester Crown Court**

(This is an extension Of Previous Petitions)

1. I am requesting, for the fourth time, that the criminal case brought against me for alleged harassment after I reported the criminal abuses of my children, IS NOT DROPPED UNDER ANY CIRCUMSTANCES, and that this charge is ANSWERED IN FULL at the trial listed for the Crown Court in Chester commencing on the 9<sup>th</sup> March 2015.

2. There should be no more delays allowing further abuse to the children and me. The last delay was supposed to have been because the barrister was unavailable. If Mr Moss is not available again, then the case should proceed and I will act as litigant in person.

3. I made available a detailed list of evidence for the police in Jan 2014, which, against their procedures, they fully ignored in making their decision to charge me with harassment. The police ignored the detailed evidenced reported crimes of perjury, child sexual abuse, child physical abuse, child emotional abuse, theft and destruction of property running into more than a million pounds.

3.1. The local authority of Cheshire West have spent more than 1 million pounds of tax payers money in trying to gag my daughter and me and in preventing the details of the reported crimes from becoming known.

4. The full evidence from January 2014 was made available to solicitors, barristers, police and courts from February 2014 onwards.

5. In July 2014, a subset of the evidence, requested by the barrister on the premise that he believed that there was simply too much evidence to use, was supplied in July 2014 and I was told produced to the judge for accepting. At that time, the judge said he would take 2 weeks to complete reading and accepting the evidence.

5.1. I never agreed that there was too much evidence, but chose a prioritised subset in order to speed things up.

5.2. The full evidence is still available if required to prove any missing detail or uncertainties in that the crimes I have reported are true based on evidence.

6. That subset of the evidence is presented in the document titled 'Tom Dobbie Defence V6', which has narrative and a list of documents and media, all of which were made available - as the subset of the entire evidence - by attached files in the electronic copy. All referenced documents and media were separately emailed to the solicitors to be made available to the barrister, the judge and prosecution.

---

7. In the possibility that the case is dropped, I will accept this as recognition that the crimes that I have reported are recognised as such by the Crown Court. It is then acceptable that I report these crimes yet again to the police and that they take action against the criminals. In particular, given the scale of the criminality across an entire board of a local authority along with it's entire team of social workers and safeguarding, , it must be seen that they are all imprisoned for criminal negligence. The alternative is that Cheshire West is above the laws of England and there is no need for courts in Cheshire West.

Definition (2010 edition)

Reaction to severe stress, and adjustment disorders

This category differs from others in that it includes disorders identifiable on the basis of not only symptoms and course but also the existence of one or other of two causative influences: an exceptionally stressful life event producing an acute stress reaction, or a significant life change leading to continued unpleasant circumstances that result in an adjustment disorder. Although less severe psychosocial stress ("life events") may precipitate the onset or contribute to the presentation of a very wide range of disorders classified elsewhere in this chapter, its etiological importance is not always clear and in each case will be found to depend on individual, often idiosyncratic, vulnerability, i.e. the life events are neither necessary nor sufficient to explain the occurrence and form of the disorder. In contrast, the disorders brought together here are

thought to arise always as a direct consequence of acute severe stress or continued trauma. The stressful events or the continuing unpleasant circumstances are the primary and overriding causal factor and the disorder would not have occurred without their impact. The disorders in this section can thus be regarded as maladaptive responses to severe or continued stress, in that they interfere with successful coping mechanisms and therefore lead to problems of social functioning.

To Her Majesty Queen Elizabeth,

cc Theresa May.

Your Majesty,

I beg your help for my children and me as loyal subjects.

Law and order has broken down in Ellesmere Port, Cheshire, England

My children are being abused right now with the approval of police, judiciary and social services.

These people allowing the abuses of my children and me are agents of your government.

Can you please get your government to protect my children, behave legally and morally decent.

There is a worldwide scandal about the behaviour of social services, especially in the huge numbers of children being abused and families being destroyed.

This is your England, where thousands of abusive, criminal, bad social workers destroy families for so many wrong reasons.

This is no theory, the exposures of their abuses is accelerating due to the huge number of people being abused. People who are decent, not druggies, not alcoholics, not child abusers.

I'm a highly regarded father and consultant physicist, poet, writer. . . .

The social services first got involved in my family because my then wife Avril Dobbie was carrying out child abuses and domestic violence. Then, the social services left us with me as the primary carer and her to attend mental health.

Social services were sympathetic but too busy. They said i was to protect the children and only if the violence got extreme - like she was stabbing them - should i get them back involved.

So, they left and it got worse. She left marks on both children many times. My daughter phoned me on occasions screaming and crying and begging me to get back to the house to protect her from her mother.

On one nasty assault she carried out on our toddler boy on 23rd July 2010 i stopped her and she reported to the police that i had assaulted her. This was the start of cascading acts of negligence by the police and social services. There is a huge

prejudice against men concerning domestic violence. Gender has become a scapegoat instead of correctly understanding the real problem

The police arrested me and charged me with assault; the case taking until April 2011 to get me cleared. Using lies and perverting the course of justice, my then wife used the police to help her take possession of the family home and move in one of her boyfriends - a pervert who abused the children. She destroyed the family business and destroyed my personal finances.

The Police response was to state they had behaved professional. They could not charge her as it was more than 6 months since wrongly arresting me and throwing me out of my own house.

Cheshire police stated they had acted as professionals at wrongfully destroying families.

The police ignored reported child abuses, harassment, destruction of property by child abusing Avril Dobbie and paedophile pervert Ken Redman living in my family home - me forced to live in a rented house at 6 Coventry Avenue Great Sutton  
The police informed the Chester Chronicle in Sep 2010 that i had been found not guilty on charges of assaulting Avril Dobbie and publishing our names and addresses. A complete work of fiction putting a taint on my name.

The police did not inform the Chester Chronicle the Crown Court result finding me not guilty and showing the police were wrong right at the start and Avril Dobbie had not only been abusing the children, but she perverted the course of justice.

So Cheshire police have lies and slander printed about me and don't have the truth printed. This is harassment by the police as well as negligence.

Now, having reported child abuses of my children and harassment of me by Avril Dobbie and Ken Redman numerous times, Cheshire Police chose to ignore it.

When i report the abuse of my children and the harassments of me to the police by 101, they ignored it.

When i used a public media to report the child abuses of my children and harassment of me by Avril Dobbie and Ken Redman the police arrested me and charged me with harassment to appear before Chester Magistrates court on 20<sup>th</sup> 2014. There is a clear pattern here.

The police and Cheshire West and Chester local authority are desperate to cover up their cascading negligence and abuses of my children and me.

Law and order has broken down in Ellesmere Port, Cheshire, England.

I make a request to your majesty to instruct her government to stop these particular abuses of my children and me.

I make another request to your majesty to instruct her government to stop the abuse of tens of thousands of children and the destruction of families by dismantling the social care system and implementing a new fit for purpose department.

Your humble subject

### **Petition No. 3.** (This is an extension Of Previous Petitions)

1. I am requesting, yet again, that the criminal abuses and miscarriages of justice against Tom Dobbie and his children ceases with immediate effect.
2. The following people have carried out perverting the course of justice: Avril Dobbie, Ken Redman, Helen Jones, Judith Griffiths, Kevin Buck, Andrea Blears, Vivian Saunders, Steve Robinson, Alan Rawlinson, Keneth Barnett and others - in order to cover up their abuses of children and acts of criminal negligence.
3. THE CROWN COURT MUST NOT DROP THIS CASE against me. This case will clearly show that what I have said in paragraph 2 above is the truth. If the case was dropped, this would be an act of perverting the course of justice in acting willfully to cover up the criminals and the crimes in paragraph 2 above.
4. I have requested to be assessed in a psychiatric hospital to prove yet again that I am not deluded. Also, since the people in paragraph 2 have effectively abused my children and me, I need help in recovering from anxiety and distress at ICD10: F43 (as diagnosed already in an NHS report - with the stress being attributed to the maltreatment of my children by the authorities ).

## Petition No. 2

1. I am requesting that the criminal abuses and miscarriages of justice against Tom Dobbie and his children cease immediately.
2. Given the large amount of evidence readily available to the police, CPS, Crown Court and the director of public prosecutions, then, it can only be deemed as criminal negligence by all of the above parties in criminally abusing my children and me for an extraordinary lengthy period.
3. I am reporting all of the above for criminal negligence and allowing the extended period of anxiety and psychological and monetary damages caused to my children and me.
4. Not only is there extensive unambiguous evidence to show that what I am saying is true (including extensive perverting of the course of justice ) there are multiple parts of evidence showing the interfering with Aurora Dobbie as a witness by Ken Redman, Avril Dobbie, Social Workers and Police. There is even a recording of Aurora telling a social worker that she was threatened by Ken Redman not to give evidence in court.
5. There is no reasonable excuse to delay this trial.

1. I am requesting that this court puts a stop immediately to the ongoing abuses of my children and me
2. The abuses include child sexual abuses, child physical abuses, child emotional abuses, adult emotional abuses that are reported by my psychiatrist at ICD10:F43 (battle fatigue level of anxiety and distress ) and caused by the authorities abusive treatment of my children and me.
3. Psychological abuses and damage.
  - 3.1. Aurora 14 years. Reported by psychologists as living in anxiety and fear behind a psychological wall at mum's.
  - 3.2. Orion 8yrs. Now has pronounced asymmetry of the face due to living in an anxious and distressed state.
  - 3.3. Tom Dobbie. Assessed and reported by NHS psychiatrists as existing in a day to day state of extreme anxiety and distress CAUSED by the authorities abusive treatment of his children and him. ICD10:F43. Requires ongoing psychiatric help including weekly meetings with a community psychiatric nurse. He requires various medications as a result of these extreme externally applied stressors from the authorities. Mr Dobbie cannot even sleep at night at all, without medication (Quetiapinepine).

Page 2 of 5.

4. In addition to the anxiety and distress every day, the authorities have caused (mostly by acting as agents of Mrs Dobbie and Mr Redman; as well as in a desperate attempt to cover up their negligence) - monetary damage to the level of £1.6 million, by destroying Mr Dobbie's business, stealing occupancy of his property, having his car destroyed by the police and loss of virtually all possessions.

5. The criminal justice system could resolve this dreadful situation today in a matter of a few hours. My daughter can verify the claims in the crimes that I have reported to the police. There are other witnesses and a host of hard evidence to support what I have reported.

6. The police were negligent in 2006, 2010 and so many other times that they do not want their negligence and subsequent cover ups exposed (2010 is when Mrs Dobbie assaulted Orion and dad with the police arresting dad).

7. The local authority originally reported of Mrs Dobbie's violence and abuses to the children. After the police negligence in 2010, the local authority took a highly prejudiced stance of 'bad dad', 'good mum' and 'lying children'. They have gone to extensive lengths to hide Mrs Dobbie's violent and abusive ways. They have covered up the children's abuses to maintain their negligent position.

Page 3 of 5.

8. Mr Dobbie got 100% custody of the children in 2011. A CAFCASS report confirmed Mrs Dobbie's and Mr Redman's abusive and fearful treatment of the children.

Aurora described how mum would hit her and Orion and shout abusively at them to the extent that Orion would wet himself frequently.

CAFCASS requested that Mrs Dobbie have psychological assessments. These showed that she was a low empathy cold mother.

9. The local authority were furious at being shown to be wrong, they set about an aggressive project to smear Mr Dobbie and cover up for Mrs Dobbie and Mr Redman. They covered up ongoing abuses of the children. They have spent (circa) £1 million to gag Aurora, Orion and me.

10. The local authority repeatedly perjured the courts to cover up the abuses and to smear Mr Dobbie. There are many documented examples of this.

10.1. One very nasty example of this was where the local authority reported to the courts that there had never been any sexualized events involving Aurora. This is in writing (I have copies of everything) and was also testified under oath by Helen Jones (social worker). This was in opposition to Aurora's reporting, her friend's reporting and North Wales Police reporting. Blatant perjury covering up child sexual abuses.

Page 4 of 5.

11. The justice system has been hijacked here in order to cover up sexual abuses of a child, physical abuses of children and emotional abuses of children and their father.

12. It is my wish that the trial goes ahead immediately - in order to minimize further psychological damage to Orion, Aurora and me.

12.1. Also, what has happened is strongly suggestive that there are many such other cases in Cheshire alone. There are frequent reporting of such in the press, and M.P's are lobbying to have all of this investigated.

13. C.P.S. have been desperate to point out that the children were placed with their mother in 2013 with the full weight of the local authority.

13.1. They avoid that Mr Dobbie had full custody in 2011.

13.2. They avoid all the reports that the children strongly wanted to live with dad.

13.3. They avoid that Prof. Billington tested the children as seeing their dad as the most important person in their lives (no competition).

13.4. They avoid that Mrs Dobbie and the local authority did everything possible to stop the children's abuses being investigated in a finding of facts.

13.5. They avoid that social services repeatedly prevented the police from talking to the children. The police are extremely PALSY with the social workers (emails addressing each other like " hi kev, ...."

Page 5 of 5.

14. I want this trial.

14.1. I want it now.

14.3. It needs to be fully public. It is in the public interest to see how easily the justice system has been hijacked and turned to nasty abuses of the victims.

15. Regarding Bail.

15.1. The original written terms were very badly defined, allowing extreme ease of action against the accused.

15.2. As a mental health patient who has cathartic dialogue with friends on line, the use of bail to mentally isolate me and cause further anxiety and distress is rather a lot against my human rights - and outright torture in making me progressively worse.

15.3. The first recall. I had invited my friends to attend the trial - in public.

15.4. The second recall. Mrs Dobbie stalked me and hacked my Facebook account to look at a private conversation between me and one of the people I act as a counselor for.

15.5. The third recall. I was collecting prescribed medication from my Dr's of 20 yrs. The medication is for the distress and anxiety caused by the authorities (defined by a psychiatrist).

15.6. None of these interfered with the witnesses or the alleged crime.

*End of Petition No 1.*

There is much more information and hard documentary, media and witnesses available as evidence available to support my case, if more is required. The judge, prosecution and jury should be made aware of the extensive pool of evidence beyond what has been submitted.

I request that ALL of the computers, tablets, phones, disc drives that the police have removed from me and my friends in order to silence me, are present at the trial in working order. There is copious evidence of criminality by the local authority and family court on these devices. There is copious evidence on them showing that the police are criminally negligent in not investigating the evidence, but merely acted in a manner to pervert the course of justice.

There are damaged computers amongst them. These were damaged by the people who I reported for theft, damages and an assortment of criminal child abuses.
