## In Matters of Covering up Child Abuse - Physical, Sexual and Emotional - by Cheshire West and Chester County Council.

Dear Mr Miller,

Mark Palethorpe wrote to you on 4<sup>th</sup> April 2013 regarding abuse of my children by their mother and the social workers involved. Mr Palethorpe is correct in very little, and incorrect (I say deliberately) in what actually matters.

The local authority received a detailed complaint from me in 2010 to which they brushed the complaint under the carpet with a simple reply actually created by the people being complained about. I informed them at the time that their reply was unacceptable, but they simply avoided taking action. I sent the complaint to LGO who forwarded it again to the local authority who ignored it. **On this point Mr Palethorpe has lied to you.**

The local authority received from me an even more detailed and updated complaint on 8<sup>th</sup> April 2013 of some 44 highly cross referenced pages to which the people being complained about again wrote a simple brush under the carpet reply of some 2 pages. Their comment was simply that the complaint was without facts; even though there are numerous facts like the local authority issuing imprisonment documents on me, the domestic violence of the mother. A professor friend of mine who used to vet courses for training people in social work said it was unbelievable as a reply. I have informed them again that the reply is unacceptable and it needs to go to the next level.

The **local authority** reported a formal **detailed Chronology** of this case. It is the most unbelievable document that shows prejudice, lies and very deliberate cover ups. It was **removed because it was so bad**. In it the local authority covered up a [abuses] of my daughter while in her mother's care. The local authority reported it never happened, the police reported that it did happen (in detail). Two consequent [abuses] have occurred that the social workers involved covered up. In one case, mum's boyfriend pushed my daughter onto the couch and stared up her skirt. The **social worker** went and had a meeting with him and **forced my daughter to apologise to him for telling about it.**

The local authority have historically refuted and covered up the mother's domestic violence and domestic abuse of the children. These are now accepted on copious evidence. However, they are still trying to cover it up. The **children were placed in a violent and abusive mum's care based on negligence.**

The **local authority** when they got responsibility for the children **prevented the police from talking to the children**. The police wrote to me saying they could not investigate because CSC had responsibility that not only prevented them, but CSC had reported everything was fine. The **police were never allowed to investigate a physical assault on my son** and another [abuse] incident on my daughter. My daughter has written a number of documents asking for help from the courts saying **she is scared living at her mum's house**. She has also **self harmed** and her **school results have been very poor** for her capability.

So, **Mr Palethorpe has lied to you** regarding police having investigated everything. The local authority got it **wrong at the start and has simply kept digging themselves deeper and deeper into doing wrong**. CSC is being encouraged to create lies to cover things up. Please see the Local Authority Chronology and my 8<sup>th</sup> April 2013 Complaint documents and have them examined by an ethical and capable person. It shows clearly that this local authority has **covered up sexual abuse and domestic violence** of children and spent over **£500,000** in doing so.

Yours Faithfully,
